

Sensitive Chat – 5:30 pm Feb 16th, 2022

Chris

Meeting with PPS

- Fences will start tonight.
- Lock down hill for 36 to 48 hours
- Start on east side of Wellington.
- Move or be arrested.
- Will start Friday
- 8 foot fences to put around parliament.
- Inside PPS posture – expect chemical deployment
- Prepare aux complet. Du monde va coucher dans le lieu
- Once in you are in.
- Will verify all vehicles. Once everyone is out they will move the trucks over seven days.
- Each vehicle will need to be secured and verified for hidden passengers and arms
- Only people on site will be supporting the operation
- Resources may be there for an extensive period. Not clear how long.
- Plan will be sent as soon as formally approved.
- PPS event coordinated the information with us.

Simon

- PPS looking at small portion of territory
- What about outside perimeter of the hill
- Fencing plan seems to go as far as Supreme court

Boulet Groulx

- Supreme court requested the fence continue until on Wellington as far as East side of Library and Archives
- PPS has approved the request.
- Have heard that Supreme Court would also be on lockdown

Brad

- Lockdown could be up to 48 hours
- Operating posture is aligned with Parliamentary Precinct
- What does lockdown mean (ex fire alarm)

Chris

- Trying to have fire department on site
- No discussion of surrounding buildings
- More of an OPS / OPP question
- Minimum of employees allowed on site

Brad

- Arrangement perhaps made with the RCMP
-

Simon

- Will need to keep various considerations in mind
- Weather may be a complicating factor

Boulet Groulx

- Meeting with ADM and Larry (PPS?) tomorrow
- What happens after event. People can just come back

Chris

- They will have the day to depart.

Brad

- NWM what will occur
- Outside of the core area

Jeff

- Can continue to have eyes on it.
- Special operation with central command separate from the current command centre
- Appear to have a team earmarked for that

Boulet-Groulx

- Have found a couple of pens on the plaza
- May need to take action for evictions

Jeff

- Have heard that when trucks impounded, anyone not cooperatively moving will be temporarily jailed and may be released later pending conditions.

Isabelle

- Plan for if they say they will leave but re-direct elsewhere
- PSPC plan in place

Jeff

- All people that arrested will need to go before a judge.
- Once arrested, condition may be to leave area immediately or go back to jail.

Chris

- If they move before, there was no discussion of direction of traffic or displacement of people.

Simon

- Some planning in case city / province request assistance for seized vehicles

Brad

- What are we to do with the parking lots we had freed up earlier. Barricade or no?

Simon

- Will validate regarding parking lots and come back.

Chris

- NCR-CC is starting to discuss event

Jeff

- Operations team will probably take over
- Really good contact (vice superintendent)- will try and plug Caroline and Simon in.

Simon

- Do you have a sense if anyone is there at Federal level besides RCMP?
- Question regarding why Gov Operations Centre is not plugged in.
- Should not just be Jeff, and Chris running around trying to mine for info.

Brad

- Project management work, various partners will need to be advised (BGIS, etc)
- Need to provide them time to stand down.
- People might start connecting dots though.
- What about other buildings close at hand.

Jeff

- Can't we use previous messaging regarding influx of people from weekends

Brad

- A lot of work has started to move forward.

Jeff

- Need a reminder that security posture has not changed.

Simon

- Given local police messaging, would make sense to re-iterate avoidance of downtown.

Brad

- Will reach out to partners

Boulet Groulx

- Who is facilitating request s.37

Nick Seguin

- No access from outside world
- Request to us to facilitate PPS to move about buildings
- Waiting for formal confirmation of request.
- Have a plan in mind.

Nic Claveau

- We have people who go into surrounding buildings for maintenance
- If we lock down surrounding buildings there is an impact on other organizations who have staff and space.

Jeff

- Discussed today, worried that if lockdown order is not communicated effectively individuals could be caught outside of a safe space.
- Need to work in conjunction with lead tenant.

Simon

- Consider for each of your respective business lines and try to restrict presence as much as possible.
